ID: 1	**Summary: Customer navigation header is shown instead of Guest header and Cart icon is misplaced in the reservation strip on Guest Menu page**	**Env: P_PRD** **Priority: Medium** **Severity: Minor**
	Pre-conditions: **The Owner has generated and shared a valid invitation link** **Reservation status is "Reserved"** **Guest has joined the session (US_G10)**	
	Steps: 1. Open the Guest Menu page via the shared invitation link. 2. Pay attention to the top Header and the green reservation strip. Actual result: The top Header displays Customer navigation links ("Main page", "Book a Table", "Reservations") and User Profile icon, while the Cart icon is placed inside the green reservation strip. Expected result: According to Figma design (Guest variant Header), the top Header contains only the "Green & Tasty" logo on the left and the Cart icon on the right.

ID: 2	**Summary: Reservation date is missing in the green reservation info strip on the Guest Menu page**	**Env: P_PRD** **Priority: Medium**

	Pre-conditions: **The Owner has generated and shared a valid invitation link** **Reservation status is "Reserved"** **Guest has joined the session (US_G10)**	**Priority: Medium** **Severity: Minor**
	Steps: 1. Open the Guest Menu page. 2. Inspect the text in the green reservation strip at the top of the page. Actual result: "You are making a pre-order for the reservation 48 Rustaveli Avenue, Table 1, 15:30 - 17:00" is shown without the reservation date. Expected result: Green strip includes the reservation date per Figma design: "You are making a pre-order for the reservation 48 Rustaveli Avenue, Table 1, <Date>, 15:30 - 17:00".

ID: 3	**Summary: "Desserts" category tab is missing and unexpected "All dishes" tab is displayed on the Guest Menu page**	**Env: P_PRD** **Priority: High** **Severity: Major**
	Pre-conditions: **The Owner has generated and shared a valid invitation link** **Reservation status is "Reserved"** **Guest has joined the session (US_G10)**	

	Steps: 1. Open the Guest Menu page. 2. Observe the category filter tabs above the dish cards. Actual result: Category bar shows "All dishes", "Appetizers", and "Main Courses". The "Desserts" category tab is missing. Expected result: According to AC 1 and Figma design, category tabs "Appetizers", "Main Courses", and "Desserts" are displayed (with "Appetizers" selected by default and no "All dishes" tab).

ID: 4	**Summary: "Sort by:" dropdown displays "Recommended" instead of "Popular First" on the Guest Menu page**	**Env: P_PRD** **Priority: Low** **Severity: Minor**
	Pre-conditions: **The Owner has generated and shared a valid invitation link** **Reservation status is "Reserved"** **Guest has joined the session (US_G10)**	

	Steps: 1. Open the Guest Menu page. 2. Pay attention to the "Sort by:" dropdown on the right side of the category bar. Actual result: "Sort by:" dropdown displays "Recommended" by default. Expected result: According to Figma design, "Sort by:" dropdown displays "Popular First" by default (with options "Popular First", "Newest First", "Price: Low to High", "Price: High to Low").

ID: 5	**Summary: Unavailable dishes display "Out Of Stock" badge, green price, and disabled [Pre-Order] button instead of "Sold Out" / "On Stop" design**	**Env: P_PRD** **Priority: Medium** **Severity: Minor**
	Pre-conditions: **The Owner has generated and shared a valid invitation link** **Reservation status is "Reserved"** **Guest has joined the session (US_G10)**	

	Steps: 1. Open the Guest Menu page. 2. Inspect the unavailable dish cards ("Fresh Avocado Toast" and "Truffle Mushroom Risotto"). Actual result: Unavailable dish cards display an "Out Of Stock" badge, green price text ($12.00, $22.50), and a disabled grey [Pre-Order] button. Expected result: According to Figma design and AC 4, unavailable items display "Sold Out" (or "On Stop" per AC 4), greyed-out price text, and no [Pre-Order] button.

ID: 6	**Summary: All dish cards display identical placeholder salad image and inconsistent weight formatting ("200g" vs "450 g")**	**Env: P_PRD** **Priority: Medium** **Severity: Minor**
	Pre-conditions: **The Owner has generated and shared a valid invitation link** **Reservation status is "Reserved"** **Guest has joined the session (US_G10)**	

	Steps: 1. Open the Guest Menu page. 2. Inspect the dish images and serving size labels on "Fresh Avocado Toast", "Truffle Mushroom Risotto", and "Margherita Pizza". Actual result: All 3 dishes show the exact same placeholder salad image, and weight formatting is inconsistent ("200g", "350g" without a space vs "450 g" with a space). Expected result: Each dish displays its own photo, and serving size in grams is formatted consistently with a space before "g" ("200 g", "350 g", "450 g")
